

26 March 1974

Fred:

This memorial plaque seems to be getting out of hand. I think a quick review of this pile would define the issues, and these are:

1. Do we want stars for people on the plaque whose names do not appear in the book?

2. I have an up-to-now unstated basic concern that some of the names listed herein might not be correct in the sense and meaning of the plaque. For example, and not to pick on him,

STAT 

and I wonder if this constitutes the right spirit of the plaque.

STAT  has suggested that General Counsel and Cover and Commerical Staff might be able to make a contribution to how we go from here. All in all, my friend, it is your ball, first and 10.
